**Subject:** Mosquito Control Spray Announcement- Downstate Ground Adulticiding (fogging)

A message from DNREC-MOSQUITO CONTROL

Weather permitting; the Delaware Mosquito Control Section plans the following insecticide application(s) during the evening hours on **Tuesday, May 16, 2017:**

Application of Anvil 10+10 (Sumithrin/PBO) with a truck-mounted sprayer to control adult mosquitos in the following areas:

**In and near Selbyville and near Harrington, Felton, Camden-Wyoming, Marydel, Dagsboro, Ocean View, Bethany Beach, Millville, Frankford, and Georgetown.**

For notification purposes, spraying will be done in the following spray zones: **89, 90, 91, 97, 98, 99, 100, 107, 178, 189, 191, 201, 202, and 203.**

All insecticides to be used are registered with the USEPA for mosquito control and will be applied according to USEPA approved label instructions. The USEPA has determined that the insecticides to be used do not pose unreasonable risks to human health, wildlife, or the environment.

For further information, please visit the [Mosquito Control Spray Information](#) site or view the [Spray Zone Map](#).
