Sam Cannon

Who am I?

I was born and raised in Ocean View. I graduated from Indian River High School in 2014. From there, I went to Lynchburg College for my bachelor's degree and UNC Charlotte for my master's degree. After graduation, I moved back to Sussex County, where me and my wife bought a house in Dagsboro. I work at TidalHealth Hospital in Salisbury and my wife is a teacher at Sussex Montessori School in Seaford.

Career and Hobbies

As mentioned, I work at TidalHealth Hospital, in the cardiovascular and pulmonary rehab and preventative medicine clinic for the past 4 years. I specialize in cardiology and metabolic disease and find great satisfaction in treating and caring for the folks on the eastern shore. In our spare time, my wife, son and I enjoy going to the beach any chance we can.

What about the Town?

Although I was born and raised in the area, I have lived in town for the past 4 years. My wife and I greatly enjoy the quaintness and walkability of living in town. This includes the events at the fire station, visiting Kisa's cafe, stopping by Milk N Honey and catching a matinee at Clayton Theatre. We want nothing more than to see this town continue to thrive for the local homeowners.
